LISTEN TO STORY 3:39

Billionaire left-wing political donor and philanthropist George Soros has appointed Mark Malloch-Brown, the chairman of SGO, which owns the Smartmatic voting software company, to be the new president of the Open Society Foundations, his global organization.

Smartmatic is one of two companies named by attorney Sidney Powell in lawsuits, thus far unsuccessful, alleging massive voter fraud in the 2020 election, along with the Dominion voting machine company.

As the Associated Press has noted, Smartmatic does not own Dominion, and apparently only provided software to Los Angeles County in the 2020 election. Still, the fact that the firm is in the news, and that Soros is closely associated with the Democratic Party, is certain to fuel new conspiracy theories.

In a press release December 4, the Open Society Foundations announced:

> Patrick Gaspard has announced his decision to step down as president at the end of the year. During his three-year tenure, he confronted significant threats to open societies around the globe, including the rise of authoritarian regimes and the spread of the COVID-19 virus worldwide. Under his capable leadership, the Open Society Foundations have emerged stronger than ever.

> through his association with Smartmatic's chairman, Mark Malloch-Brown, who is on the board of Mr. Soros's Open Society Foundation.

Malloch-Brown is chairman of SGO, the parent company of Smartmatic. He appears to have been identified by Smartmatic as its chairman in the past.

SGO announced that Malloch-Brown will be stepping down as chairman to take on his new role with Soros, and acknowledged his work with "Smartmatic, the world's leading elections technology company, whose systems have securely processed more than five billion votes on five continents with zero security breaches."

Soros is one of the most influential funders of the American left, and is responsible for supporting many left-wing institutions that are supplying key administrative staff to Joe Biden. Recently, Biden named Neera Tanden, head of the Soros-funded Center for American Progress, as his nominee to lead the White House Office of Management and Budget.

Breitbart News has reached out to the Open Society Foundations for comment.

Soros now even owns Breitbart.

Won't do him any good.

You failed, György. You did not study properly under Sir Karl Popper, did you ???

Not even Breitbart will ever convince Americans that Dementia Joe received more LEGITIMATE votes than President Trump. STOP THE STEAL!

Bidet got more ballots.
Whether that means more votes or not -- that is the question.

If only America took "integrity of the process" as seriously about governing, as it is done in the NFL! Every play has multiple camera angles, replay, slo-mo, and the opportunity for challenges. Every ballot should be so carefully vetted....

He didn't necessarily even get more ballots. Between the ballots that were fed through the machines multiple times and the votes that were switched he may have had even fewer ballots counting both the legitimate and fake ballots.

Hard to believe that counters would be so brazen as to count the same ballots over and over. Total lack of conscience.

It'll be up to SCOTUS to recognize the evidence and make the judgement call. That will be the telling of the moral code of these SUPREMES and this country's future.

Cant really be possible if the hand ballot count met the dominion count such as in Georgia means they could only have faked ballots.

It gave nothing at all, thin air. Election day is next week.
Yes, a mass psychosis these popular elections, decades upon decades of total pointless madness.

The populace doesn't know its founding constitution, hence their yearly vacuous, consumeristic pilgrimage.

73 million voted for Trump.

Fewer than that voted for illegitimate president* Dementia-46* until they manufactured enough votes to get him to 80 million.

Enjoy the next 4 years of economic depression.

400,000,000 guns in American private ownership ... almost all of them in patriotic ownership ... How many billion rounds of ammo sitting in boxes next to magazines next to those guns? At least 100 round avg per gun ... 40,000,000,000 ... 40 Billion rounds ! Maybe even a hundred billion rounds or so. Bigger cloud from all that gun powder going off than from all volcanoes since the creation of the earth ... seems.

Whose side will the military be supporting once Trump is no longer president? Martial law under the cloud of less votes, and failure to have the U.S. Supreme Court to validate or turn the election over to the state legislatures, will only lead to a fascist takeover to put down the communist uprising. Meanwhile, the California, Oregon, Washington communist political cartels will be inviting the ChiComs in under U.N.
